EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with D. J. Cushing on 8/28/2007.

The application has been amended as follows:

IN THE CLAIMS:

1. Cancelled claims 17 and 18
2. In claim 16, line 1, after "wherein said", deleted "**adjustment to**" and added, --**buffering element adjusts**--

In claim 16, line 2, after "input/output rate", deleted "**of said buffering element**"

In claim 16, line 2, after "said notifying", deleted "**is**"

[Claim 16 now reads 'The communication method according to claim 1, wherein said buffering element adjusts said cell input/output rate in response to said notifying without impact on a rate of transmission between said line termination element and said network termination elements.']

3. Since claim 19 was missing in amended claims, received on 6/15,2007, claim 20 has been renumbered accordingly.

Reasons for Allowance

4. Claims 1, 3-16 and 20 allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The closest cited prior art, Zheng et al. (US 5,745,477) and Ikeda (US 6,072,775), taken alone or in combination, fails to disclose the inventive method step of "sending a notification to a buffer that implements input/output control in accordance with a bandwidth-related condition of a network element *without impacting transmission rates over the network*", claims 1, 4, 7, 10 13 and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M. Qureshi whose telephone number is (571) 272 3178.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Field Lynn can be reached on (571) 272 2092. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
